## recommended redwood stain/sealer?

Posted by linda - 2008/07/08 17:49

---

Does anyone have experience with stains or sealers for redwood siding? I have used a number of products and am not satisfied with them. After reading the forum I realize that I will need to use a stripper and brightner but what then? What products do you recommend?

Thanks Linda

What brands have you tried in the past? How long did they last? What state are you in?
